Dear Mr. Holly,

This letter is in response to both of your letters of February 10, 2011 with regard to our amended October quarterly report and 30 Day Post-General report.

First, with regards to the October Quarterly Report (7/01/2010 - 09/30/2010). Schedule B supporting Line 17 refers to Consulting in three places. These are being clarified with more descriptive terms. We have filed an amended report with "Consultant-Media" for one of the payments and "Consultant-Get-Out-the-Vote" for the other two payments.

Next, items 1-4 for the 30 Day Post-General Report are discussed below.

1. We did give a \$2,400 refund to Peter J. Travers. This contribution was received 9/17/2010 and is reported on the October 2010 quarterly report. Since the refund was sent after the October 2010 report close of books, it was included on the 30 Day Post-General report instead.

2. A PAC contribution of \$180 was not listed. The FEC-File software that was used to file this report automatically itemized PAC contributions of \$200 or more and therefore skipped over this one. An amended report for the October 2010 filing - which includes an itemization of the \$180 contribution - has been submitted.

3. John Nebel's donation of \$1,000 on 10/15/2010 was in fact correctly reported on a 48 hour notice filed 10/17/2010 (FEC-503226). It is the 6th entry on the report.

Doris Lawson's donation was reported on a 48 hour notice filed 10/20/2010 (FEC-505737), but the report shows \$0.00 instead of the intended \$2,400. This could have been a data entry error or a software glitch of some kind.

The contributions of Phil Tharp, Charles Ireland, William Gray, AAPS-PAC, and William Dannemeyer were submitted, but apparently did not make it through the system. The 48 hour notices were filed by me using FEC-File software. I specifically remember entering and submitting at least 3 of these on time.
